SAKE

(110 – 130 cal per glass/330 – 420 cal per bamboo/250 – 760 cal per bottle)

Sake is the reflection of its four ingredients (rice, water, yeast and koji), its nature, geography and the skill of the craftsmen who create it.

The SMV value (+/-) is a general reference to the dryness or sweetness of sake and most sake is assigned a value. **SAKE RATING (+10) = DRIEST, (-100) = SWEETEST**
